SUMMARY

Full-stack developer with a strong focus on Python, React.js, TypeScript, and FastAPI. Experienced in building scalable web applications, developing REST APIs and microservices, and deploying cloud-based solutions on AWS. Skilled in developing AI workflows using RAG and integrating modern AI technologies into software applications. Holds a Master's degree in Computer Science with a focus on AI and Deep Learning.

SKILLS

Technical Skills: Python, FastAPI, AWS, CI/CD, Next.js, React.JS, JavaScript/TypeScript, Datadog/Sentry, PostgreSQL

Soft Skills: Client Communication, Problem Solving, Technical Strategy, Team Collaboration

Specializations: Full-Stack Software Engineer, Applied AI Engineer

EXPERIENCE

- **Software Engineer** Apr 2026 - Sep 2026
HeyJobs Berlin, Germany
 - Built and maintained backend services in Python with FastAPI
 - Deployed on AWS and maintained the CI/CD pipelines
 - Built the user-facing interfaces in Next.js and React
 - Designed the microservice architecture and ran it in Docker on Kubernetes
- **C++/Python Developer** Sep 2024 - Apr 2026
TU Berlin Technical University Berlin, Germany
 - Develop relational database technology using C++ and Python
 - Design and implement Web APIs using FastAPI to handle data requests
 - Work with Datafusion and PyArrow for efficient data processing and normalization
- **Full-Stack Developer** Nov 2021 - Apr 2024
LRCAR Service Remote, US
 - Built full-stack applications using ASP.NET Core, React, and Node.js
 - Developed backend systems and mobile applications with Firestore integration
 - Responsible for technical implementation and meeting project timelines
- **Full Stack Developer** Aug 2022 - Nov 2023
NUST Pakistan
 - Developed web applications to provide access to Language Learning Models (LLMs) for private organization policies
 - Managed end-to-end development using React.js for interfaces and ASP.NET Core for logic
 - Designed database operations in MySQL to support LLM-driven data retrieval and processing
- **Freelance Full Stack Developer** Jul 2018 - Apr 2024
Fiverr / Upwork Remote
 - Developed a number of web and mobile applications using Next.js, React, and ASP.NET Core
 - Built custom software solutions for diverse business requirements and client needs
 - Focused on creating responsive user interfaces and scalable backend architectures

EDUCATION

- **Master of Science in Computer Science** Apr 2024 - Present
Technical University Berlin
 - Ongoing

- **Master of Science in Computer Science**

Oct 2021 - Aug 2023

National University of Science & Technology

– Specialization in Deep Learning. Thesis: Social Media Indicators for Cryptocurrency Price Prediction

- **Bachelor of Science in Software Engineering**

Sep 2017 - Oct 2021

Foundation University Islamabad

– Specialization in Software Development

PROJECTS

- **LR Car Web Dashboard & Mobile App**

ASP.NET Core, React.JS, Node.JS, GCP

– Service platform for drivers and dispatchers including a web portal and mobile application.

- **CV Anonymizer**

React.JS, Firestore, Serverless, GCP

– Platform for CV data management and anonymization with user and admin dashboards.

- **Truck Safety Team ERP Web Dashboard**

ASP.NET Core, React.JS, MySQL, GCP

– Management system for logistics integrating vehicle management, jobs, and performance tracking.

- **STUZANNE ERP Desktop Application**

ASP.NET Core, React.JS, Electron.JS

– Enterprise management system to manage jobs and customer data via a centralized desktop interface.
